CARE AND MAINTENANCE

ARTWORKS WITH EXPOSED PANELS

Dust gently with a soft brush or a vacuum cleaner on a low setting fitted with an upholstery attachment.

To preserve the fibres, colours, velvet and cork, avoid prolonged exposure to direct sunlight, excessive heat and high humidity.

For stains, consult a professional textile conservator; only spot cleaning is recommended.

GLAZED ARTWORKS

Remove dust from the glass with a soft cloth. Do not spray cleaning products directly onto the glass or open the frame to clean the textile panel.
